B C Samrudh	PES University	CSE(AI/ML)	9353254650	pes1202203685@pesu.pes.edu

The Problem

Imagine bidding farewell to the exhaustion of last-minute cramming for comprehensive syllabus coverage.

Our product can be used to create concise study guides, chapter summaries, generate questions and answers for practice, curate interactive practice quizzes, realistic exam simulations, answer doubts and much more.
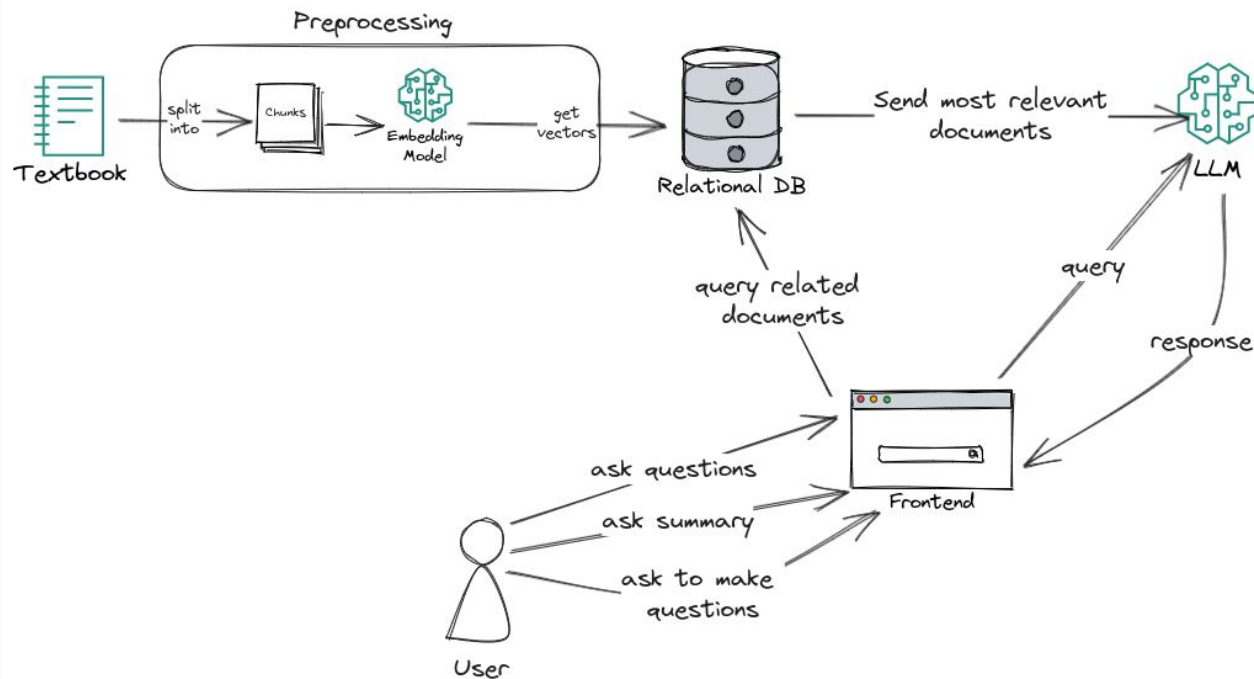

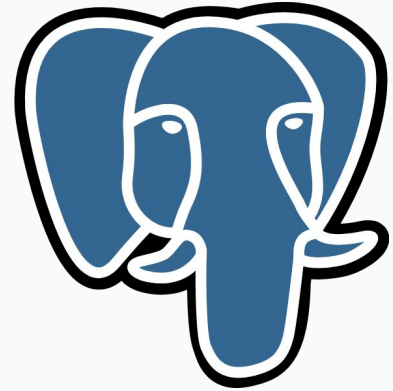

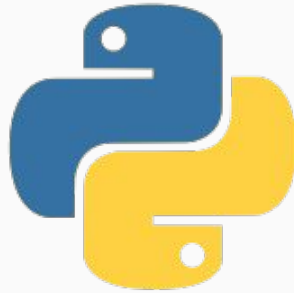

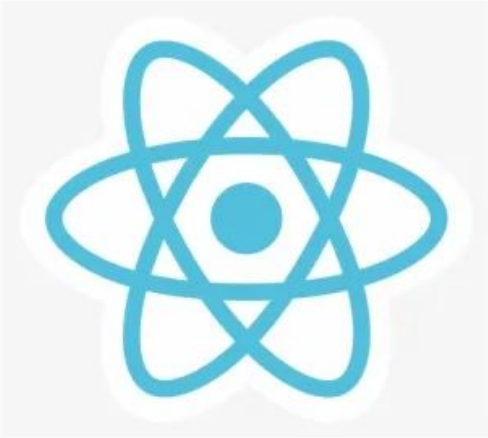

Solution

Our product will be your companion to answer all your doubts and give you questions for revision making learning more personalized and efficient.

How it works

Tech Stack Used:

Feasibility

- Students are our target audience

- To be a study companion

- For scaling, all the components are compartmentalized so it can be horizontally scaled

Business Applications

1. Personalized Learning Platforms : Creating personalized learning platforms that adapt content and teaching methods based on individual student progress.

2. Tutoring Services : Tutors can retrieve relevant resources and generate explanations and examples tailored to individual student needs.

3. Educational Data Analytics : Automatically retrieve relevant data for analysis and generate reports, summaries, and visualizations for educators and administrators.
